New Customer Guide

Introduction

At TechAccountingPro, our mission is to provide solutions that empower and change the accounting space. We deliver a thoughtful data driven insight and drive the innovation that helps our clients to solve accounting and reporting challenges.

Our Values

Challenge Status Quo

At TechAccountingPro, we challenge the status quo by identifying and highlighting risks and issues that others may overlook. Our proactive approach ensures that our clients are always ahead. Our commitment is to provide governance members with fresh perspectives and valuable insights, ensuring you're aware of potential risks before they become problematic.

Trusted Advisors

We serve as your trusted advisors, offering more than just compliance assurance. Our focus is on delivering strategic insights that others miss, helping you navigate the regulatory complexities with confidence. We deliver crucial, fresh insights and identify overlooked issues, equipping governance members and business leaders with the information needed to make informed decisions.

Innovation

We lead with innovation and diversity, bringing a wide array of perspectives and cutting-edge automation technologies to every project. This approach not only streamlines processes but also introduces efficiencies that traditional methods cannot match. We embrace diversity within our team to bring a broad range of insights and solutions to every challenge

Our Expertise

TechnicalAccountingPro offers on-demand, top-notch technical accounting expertise, meticulously tailored to meet your distinct business requirements.

We work with startups in the digital assets space. We worked with well-known DAO, token issuers, foundations, proof-of-stake validators, and other web3 native businesses as well as with other accounting firms serving the industry.

Our team of specializes in complex accounting issues and can provide tailored solutions to meet your specific needs. With our expertise, you can focus on growing your business while we handle the technicalities.

We will answer all your questions about US GAAP compliance and provide you with timely, accurate responses, letting you concentrate on running your business without the stress.

Our Founder

Dr. Andrew Belonogov, Founder, is a licensed CPA, fellow chartered accountant of ACCA, and holds a Ph.D. in Accounting and Statistics. He is the author of two books on specialized accounting topics and maintains a blog about technical accounting topics, with a strong emphasis on blockchain accounting and related issues. Andrew is an expert specializing in accounting guidance ambiguity. He has over ten years of public accounting experience working with companies ranging from Fortune 500 to pre-seed stage startups. Andrew started his career at Big-4 (KPMG) and was one of the pioneers in implementing the new revenue accounting standard in the U.S. He wrote dozens of technical accounting whitepapers.. Dr. Belonogov has successfully led methodological development/consulted development teams of 3 accounting software projects.
